

Curriculum Vitae

Lothar A. BLATTER, M.D., Dr. med.

Professor of Physiology & Biophysics (with tenure)
John H. and Margaret V. Krehbiel Professor of Cardiology

Department of Physiology & Biophysics
Rush University, Rush University Medical Center
1750 W. Harrison St.
Chicago, IL 60612
Phone: +1 312 563 3238
FAX: +1 312 942 8711
E-mail: Lothar_Blatter@rush.edu

Date of Birth: August 30, 1956

Citizenship: Switzerland and USA

Education

Schools in Wabern and Bern, Switzerland.
University entrance ('Matura') at the Literargymnasium Bern-Kirchenfeld in 1975.

Study at the University of Bern

1975 Began the study of Medicine
1976 Natural Sciences Examination
1977 Anatomic-Physiological Examination
1978 Basic Clinical Sciences Examination
1982 Final Examination for Physicians and graduation from the Medical Faculty, University of Bern
1984 Dissertation (degree of Doctor of Medicine, Dr.med.)

During my studies I was a demonstrator in Physiology at the Department of Physiology in Bern.

Postgraduate Education and Career

From October 1981 (i.e. starting during my student elective) until spring 1984: collaboration on an epidemiological study on rheumatic diseases in the Canton of Bern, Switzerland, at the Institute for Research in Education and Evaluation (IAE), University of Bern.

In April 1984 this work was accepted as dissertation for the degree of Doctor of Medicine, Dr. med. (awarded April 30, 1984).

In 1982 and 1983 I attended selected lectures in statistics at the University of Bern.

1984/85 Participant in the Postgraduate Course in Experimental Medicine and Biology (with a stipend from the Swiss National Science Foundation) at the University of Zürich, Switzerland.

November 1984 to December 1987: Postdoctoral Research Fellow and Assistant at the Department of Physiology, University of Bern, Switzerland (laboratory of Prof. J.A.S. McGuigan) investigating factors influencing ion homeostasis in cardiac muscle cells with special regard to calcium, magnesium, sodium and pH, using various kinds of ion-selective microelectrodes.

July/August 1987 visiting scientist at the Department of Pharmacology, Mayo Foundation, Rochester, MN, USA (laboratory of Prof. J. R. Blinks).

January 1988 to June 1989: Postdoctoral Research and Senior Research Fellow at the Department of Pharmacology, Mayo Foundation, Rochester, MN, USA (laboratory of Prof. J. R. Blinks) working on the following projects: (1) comparative, simultaneous measurements of resting free calcium in single skeletal muscle fibers using ion-selective microelectrodes and the photoprotein aequorin, (2) investigation of the effect of stretch on the intracellular free calcium concentration in skeletal muscle, and (3) investigation of the regulation of intracellular free magnesium in frog skeletal muscle fibers using a novel type of magnesium-selective microelectrode.

July 1989 to June 1991 Research Associate (laboratory of Dr. W. G. Wier) and July 1991 to August 1993 Research Assistant Professor at the Department of Physiology, University of Maryland, Baltimore, MD, USA. The main research interest focussed on (1) the investigation of the temporal and spatial organization of oscillatory $[Ca^{2+}]_i$ changes in various cell types (cardiac muscle, smooth muscle, endothelial cells, neurons) and (2) on the study of vascular endothelium - smooth muscle interaction and the role of endothelium derived relaxing factor (nitric oxide) in the regulation of $[Ca^{2+}]_i$ in vascular smooth muscle including the direct measurement of nitric oxide by microelectrode techniques. The whole-cell voltage-clamp method and a high-temporal resolution calcium-imaging device were used to measure the intracellular $[Ca^{2+}]_i$ distribution and to investigate the underlying regulatory cellular mechanisms. Advanced techniques of image restoration, based on 'de-blurring' of fluorescence images by mathematical deconvolution of optical sections, were used to improve the spatial resolution of fluorescence images recorded from living cells.

September 1993 to June 1997: Assistant Professor on the tenure-track at the Department of Physiology, Stritch School of Medicine, Loyola University Chicago, Maywood, IL, USA.

July 1997-June 2002: Associate Professor at the Department of Physiology, Stritch School of Medicine, Loyola University Chicago, Maywood, IL, USA. Since July 1999 Associate Professor with Tenure.

July 2002-January 2008: Professor of Physiology at the Department of Physiology, Stritch School of Medicine, Loyola University Chicago, Maywood, IL, USA.

February 2008-date: Professor of Physiology & Biophysics at the Department of Physiology & Biophysics, Rush University Medical Center, Chicago, IL, USA.

December 2021: Named John H. and Margaret V. Krehbiel Professor of Cardiology of Rush University Chicago.

Current areas of research:

(1) Cardiac Physiology. Study of mechanisms of excitation-contraction coupling and calcium regulation in cardiac (ventricular and atrial) muscle with the combined use of confocal imaging techniques and voltage clamp methods. Investigation of the regulation of cardiac ryanodine receptor calcium release channel incorporated into lipid bilayer. Investigation of the mechanism of cardiac alternans and cellular mechanisms of arrhythmias in cardiac hypertrophy and heart failure. Study of the role of IP₃-dependent Ca²⁺ signaling for excitation-contraction coupling, arrhythmias, and cardiac hypertrophy. Study of nuclear Ca²⁺ signaling and regulation of translocation of transcription factor NFAT. Investigation of redox regulation of SR Ca²⁺ release. Study of NO-dependent signaling pathways in cardiac cells. Study of cardiac energy metabolism and its effects on excitation-contraction coupling and Ca²⁺ signaling. Study of intracellular pH and measurement of intracellular [Na⁺] with fluorescence 2-photon confocal microscopy. Study of the mechanism of pacemaker activity in cardiac cells.

(2) Vascular Physiology. Investigation of cellular and molecular mechanisms of [Ca²⁺]_i regulation in vascular endothelial cells with high temporal and spatial resolution, using digital video fluorescence microscopy and laser scanning confocal microscopy. Study of the spatio-temporal regulation of capacitative calcium entry in vascular endothelial cells. Investigation of cellular mechanisms of the regulation of nitric oxide (NO) production and release from vascular endothelial cells. Study of the role of NO for [Ca²⁺]_i regulation in vascular endothelial cells. Ca-dependent regulation of translocation of transcription factor NFAT in vascular endothelial cells.

(3) Mitochondria. Study of the mechanisms governing mitochondrial membrane potential, mitochondrial ion channels and transporters, mitochondrial calcium signaling and the role of mitochondria for cellular calcium homeostasis and metabolism. Study of mitochondrial NO synthase function and regulation. These studies involve optical measurements of membrane potential, pH, calcium and sodium in single isolated mitochondria as well as in mitochondria in permeabilized and intact cells, and the Seahorse flux analyzer to study mitochondrial respiration and metabolism.

Memberships

Swiss Physiological Society
American Association for the Advancement of Science
Biophysical Society
The New York Academy of Sciences
The Physiological Society U.K.
American Heart Association, Basic Science Council
Society of General Physiologists
American Physiological Society
International Society for Heart Research

Honors

1990/91 Myron L. Weisfeldt, M.D., Fellow of the American Heart Association - Maryland Affiliate
1994/97 The Schweppe Foundation, Career Development Award
1995/2000 Established Investigator of the American Heart Association
2001 Received offer for the Chair position of the Department of Physiology, University of Bonn, Germany
2018 elected Fellow of The Physiological Society
2021: Named John H. and Margaret V. Krehbiel Professor of Cardiology of Rush University Chicago.

Editorial tasks

Editorial Board Member:

2007-2012 The Journal of Physiology
2010-2017 Frontiers in Mitochondrial Physiology
2013-date Cardiovascular Research

Manuscript referee for:

Extramural research review committee activities

1992-1993 Research Peer Review Subcommittee, American Heart Association, Maryland Affiliate
1996-1999 Co-chair, Molecular Signaling I Study Committee, American Heart Association, National Center
Ad-hoc grant reviewer for Swiss National Science Foundation
Ad-hoc grant reviewer for Alberta Heritage Foundation for Medical Research, Edmonton, Alberta, Canada
Ad-hoc reviewer for the Austrian Science Fund (FWF)
Ad-hoc grant reviewer for Hong Kong Research Grants Council
1999, 2000 and 2003 NIH Cardiovascular (CVA) Study Section (temporary member)
2004, 2005, 2008, 2010, 2011, 2012, 2013 NIH, PPG review
2006 NIH ZRG1 MDCN-G 91, Calcium Channels and Calcium Signaling (Teleconference)

Departmental and university services

Loyola University

1994 Faculty Recruitment Search Committee, Department of Physiology
1994 Local Area Network Committee, Department of Physiology
1994-1995 Departmental Graduate Program Committee

1994-1995 Organization of Departmental Research Seminar Series
 10/1997-7/1999 Faculty Council Research Committee
 1999 Organization of the Retreat of the Dept. of Physiology
 1994-2008 Director of the Imaging Core Facility, Department of Physiology
 1995-2008 Supervision of Research Machinist and Machine Shop, Department of Physiology
 1995-2008 Cardiovascular Institute Research Committee
 1995-2008 Medical Student Research Fellowship Selection Committee
 12/1997-2008 LUMC Core Imaging Facility (CIF) Oversight Committee
 7/1998-6/2007 LUMC Research Funding Committee (RFC)
 8/1998-2008 Departmental Graduate Program Committee
 7/1999-2008 Faculty Advisor of Loyola Medical School Running Club
 2001 LCME Self Study Task Force, Basic Science Departments Subcommittee
 2002-2008 LUMC Graduate Curriculum Committee
 2005-2008 LUHS BSI Committee (chair)
 2005 Faculty Recruitment Search Committee, Department of Physiology
 2005-2008 Supervision of Computer and Electronics Shop, Department of Physiology

Rush University

2008 Review intramural grants Rush University Medical Center
 2012-date Advisory Committee to the Chair, Dept. Molecular Biophysics and Physiology, Rush University Medical Center
 2015-2018 Rush Graduate College Curriculum, assistant track leader Cardiovascular Track
 7/2019-date Rush Medical College Faculty Council

Teaching activities

1979-1981 Physiology course, Feusi-Rüedi School of Nursing, Bern, Switzerland
 1985-1987 Laboratory courses in Physiology for medical, veterinary, dental and pharmaceutical students, Medical Faculty of the University of Bern, Switzerland
 1989 Course Phar 8802: Pharmacology of Heart Muscle, Mayo Graduate School, Mayo Clinic, Rochester, MN.

Loyola University Chicago, Graduate School

Course PHY503, Physiology: Striated Muscle
Course PHY512, Graduate Physiology II
Presentation 1* yr graduate students: "Meet the Professors"

Personnel

Current laboratory personnel

Giedrius Kanaporis, Ph.D.; assistant professor (3/2012-present)

Yuriana Oropeza-Almazan (7/2018-present)

Past

Assistant professors

Elena N. Dedkova, Ph.D. (2/2008-12/2014)

Aleksey V. Zima, Ph.D. (2/2008-9/2009)

Pre- and postdoctoral trainees

Elena N. Dedkova, Ph.D.; postdoctoral trainee/research assistant professor (11/1999-1/2008)

Jörg Hüser, Ph.D.; postdoctoral trainee/research assistant professor (6/1995-5/1999)

Aleksey V. Zima, Ph.D.; postdoctoral trainee/research assistant professor (1/2001-1/2008)

Gias U. Ahmmed, M.D., Ph.D.; postdoctoral trainee (10/2000-6/2001)

Ademuyiwa A. Aromolaran, Ph.D.; postdoctoral trainee (9/2001-3/2006)

Elisa Bovo, Ph.D., postdoctoral trainee (10/2008-3/2010)

Fredy Cifuentes, Ph.D.; postdoctoral trainee (5/1997-4/1998)

Jaime DeSantiago, M.D., Ph.D.; postdoctoral trainee (9/2014-7/2019)

Timothy L. Domeier, Ph.D.; postdoctoral trainee (6/2006-8/2010)

Joshua N. Edwards, Ph.D.; postdoctoral trainee (5/2011-9/2013)

Stela N. Florea, M.S.; predoctoral trainee (1/2002-4/2007)

Marcel D. Halbach, visiting student Univ. Cologne, Germany (8-9/2001)

Felix Hohendanner, M.D.; predoctoral trainee (1/2012-12/2014)

Jaclyn R. Holda, Ph.D.; predoctoral trainee (2/1995-5/1998), postdoctoral trainee (6/1998-7/1998)

Zane M. Kalik, B.Sc., research assistant (8/2017-8/2019)

Andrey Klishin, Ph.D.; postdoctoral trainee (2/1996-5/1999)

Jens Kockskämper, Ph.D.; predoctoral trainee/visiting scientist (9-10/1997), postdoctoral trainee (4/2000- 3/2002)

Christoph Littwitz, visiting student, Ruhr-University Bochum, Germany (10-12/2007), postdoctoral trainee (2/2009-12/2010)

Elisabeth Littwitz, visiting student, Ruhr-University Bochum, Germany (9/2010)

Elizabeth Martinez-Hernandez; postdoctoral trainee (7/2018-7/2021)

Joshua T. Maxwell, Ph.D.; postdoctoral trainee (7/2010-6/2014)

Kay Neumann, visiting student & Leducq fellow, Georg-August-Universität Göttingen, Germany (9/2010-3/2011)

Isaac Philip, summer research student (2013, 2014)

Andreas Rinne, Ph.D.; postdoctoral trainee (11/2006-3/2010)

Hiroshi Satoh, M.D., Ph.D.; postdoctoral trainee (8/1994-6/1996)

Marina Sedova, Ph.D.; postdoctoral trainee (9/1996-8/2000)

Lea Seidlmayer, M.D.; postdoctoral trainee (7/2009-12/2011)

Vyacheslav M. Shkryl, Ph.D.; postdoctoral trainee (2/2006-12/2011)

Katherine A. Sheehan, M.S.; predoctoral trainee (1/1998-12/2002)

Stefanie Walther, M.D.; postdoctoral trainee (7/2010-4/2015)

Technical staff

Brian Danzer, M.Sc.; research technician (4/2012-1/2013)

Viktor Flaks, Biomedical Electronics Technician (1/2007-1/2008)

Holly R. Gray, Research Assistant (7/1999-3/2002)

Rachel L. Gulling, Research Assistant (12/1997-8/1999)

William Johnson, Research Assistant (8/2003-5/2004)

Anne Pezalla, Research Assistant (4/2002-9/2003)
Christine E. Rechenmacher, Research Assistant (6/1994-8/1997)
Vanessa Vullmahn, M.Sc., Research Technician (11/2011-8/2012)
Vezetter Whitaker, Research Machinist (1/1995-1/2008)

Dissertation supervision

Stela N. Florea (LUMC, Ph.D. Physiology, 2007)
Felix Hohendanner (Rush Graduate College, Ph.D. Molecular Biophysics & Physiology, 2014)
Jaclyn R. Holda (LUMC, Ph.D. Physiology, 1998)
Katherine A. Sheehan (LUMC, Ph.D. Physiology, 2003)

Dissertation/thesis committees

Kelly Aromolaran (LUMC, Ph.D. Neuroscience, 2009)
Eric Buss (Rush Graduate College, Ph.D. Neuroscience, 2016)
John Fahrenbach (LUMC, Ph.D. Physiology, 2008)
Jon Paul Fiening (LUMC, master's degree, Physiology, 1997)
Stela N. Florea (LUMC, Ph.D. Physiology; 2007)

Principal Investigator: Lothar A. Blatter

1993-1994

1992: Foundation Max Cloetta Award/Stipend, Switzerland (this award would have provided 5 years salary support as a faculty member at an University in Switzerland (Dept. Pharmacology, Univ. of Bern); I have returned this award because I accepted a faculty position at Loyola University Chicago, USA).

AHA, Maryland Affiliate, Beginning Grant-In-Aid

Principal Investigator: Lothar A. Blatter

7/1991-6/1993

AHA, Maryland Affiliate, 1990/91 Research Fellowship

Principal Investigator: Lothar A. Blatter

7/1990-6/1991

1984/85 Stipend from the Swiss National Science Foundation to participate in the Postgraduate Course in experimental Medicine and Biology at the University of Zürich, Switzerland.

Kanaporis K., DeSantiago J., Kalik Z., Banach K. & Blatter L.A. (2018). Action potential shortening prevents atrial calcium alternans. *Biophys. J.* 114(3), 290a.

Devanesan M., Atallah I., Gaddam H., Jones K., Samelko B., Beck T., Zhang Y., Wei C., Blatter L.A.,

Feinstein S.B., Reiser J., Banach K., Hayek S., Okwuosa T.M. (2019). Soluble Urokinase Plasminogen Activator Receptor Levels Rise In Response To Cardiotoxic Chemotherapy Independent Of Global Longitudinal Strain. Poster Presentation, American Heart Association Scientific Sessions 2019.

Invited seminar presentations

Dept. of Physiology, University of Bern, Bern, Switzerland; June 15, 1987

Dept. of Pharmacology, Mayo Clinic, Rochester, Minnesota; July 24, 1987

Dept. of Pharmacology, Mayo Clinic, Rochester, Minnesota; April 28, 1989

Dept. of Physiology, Loyola University Chicago, Maywood, Illinois; December 7, 1992

Dept. of Pharmacological and Physiological Science, Saint Louis University Medical Center, St. Louis, Missouri; December 14, 1993

Cardiac Electrophysiology Laboratories, The University of Chicago, Chicago, Illinois, June 6, 1994.

Department of Pharmacology, Rush Medical College, Chicago, Illinois, June 17, 1994.

Dept. of Physiology and Biophysics, Finch University of Health Sciences/The Chicago Medical School, North Chicago, Illinois, October 6, 1994.

Department of Pharmacology, The University of Illinois at Chicago, Chicago, Illinois, October 21, 1994.

Dept. of Physiology, University of Freiburg, Freiburg, Switzerland, January 26, 1995.

School of Medicine, University of Connecticut Health Center, Farmington, Connecticut, April 13, 1995.

Dept. of Physiology, Loyola University Chicago, Maywood, Illinois; June 7, 1995.

Dept. of Physiology and Biophysics, The University of Illinois at Chicago, January 23, 1996.

The Cardiovascular Institute, Loyola University Chicago, Maywood, Illinois; January 16, 1997.

Department of Pharmacology, The University of Illinois at Chicago, Chicago, Illinois; February 14, 1997.

The Burn and Shock Trauma Institute, Loyola University Chicago, Maywood, Illinois; May 14, 1997.

Department of Physiology, University of Wisconsin Medical School, Madison, Wisconsin; January 22, 1998.

Dept. of Physiology, University of Bern, Bern, Switzerland; May 8, 1998.

Section of Nephrology, University of Chicago; January 7, 1999.

Hamamatsu University, School of Medicine, Hamamatsu, Japan; May 13, 1999.

Research Institute of Environmental Medicine, Nagoya University, Nagoya, Japan; May 14, 1999.

Dept. of Pharmacology, Rush Presbyterian St. Luke's Medical Center, Chicago, Illinois; June 4, 1999.

Laboratorium voor Fysiologie, K. U. Leuven, Leuven. Belgium; October 8, 1999.

Institute of Neurophysiology, University of Cologne, Cologne, Germany; October 11, 1999.

Loyola University Chicago, Neuroscience Graduate Program Seminar Series, Maywood, Illinois; November 19, 1999.

Dept. of Physiology and Biophysics, The University of Illinois at Chicago, Chicago, Illinois. February 1, 2000.

Dept. of Pharmacology and Physiology, UMDNJ, Newark, New Jersey. December 11, 2000.

Northwestern University, Confocal User Group. Chicago, Illinois. January 12, 2001.

Dept. Physiology, Texas Tech University, Health Sciences Center, Lubbock, TX. May 22, 2001.

Lake Forest College, Lake Forest, IL, October 24, 2001.

Dept. of Pharmacology and Toxicology, University of Graz, Graz, Austria. November 26, 2001.

University of Chicago. Mitochondria Interest Group. Chicago, Illinois. January 9, 2002.

State University of New York (SUNY) at Stony Brook. Dept. of Physiology and Biophysics. Stony Brook, New York. April 17, 2002.

University of Nevada School of Medicine. Department of Physiology & Cell Biology. Reno, Nevada. June 6, 2002.

Dept. of Molecular Biophysics and Physiology, Rush Presbyterian St. Luke's Medical Center, Chicago, Illinois. November 11, 2002.

Ohio State University Medical Center, Davis Heart and Lung Research Institute. Discovery Series Lecture. Columbus, Ohio. October 25, 2006.

The Chicago Mitochondria and Cell Death Seminar Series. Northwestern University, Feinberg School of Medicine. December 11, 2006.

Department of Pharmacology, UC Davis. Davis, California. June 1, 2007.

Dept. of Pharmacology and Physiology, UMDNJ, Newark, New Jersey. February 2, 2009.

Cardiovascular Research Center & Division of Cardiovascular Medicine, Univ. of Wisconsin. Cardiovascular Research Conference. Madison, Wisconsin. October 18, 2010.

Dept. of Medical Pharmacology and Physiology, Univ. of Missouri. Columbia, MO. November 30, 2010.

Northwestern University, Feinberg Cardiovascular Research Institute, 2011 - 2012 Seminar Series. Chicago, IL. October 13, 2011.

University of Illinois at Chicago, Division of Pulmonary, Critical Care, Sleep and Allergy. Pulmonary Hypertension Seminar Series. Chicago, IL. October 25, 2013.

Rush University Medical Center, Research Grand Rounds. Chicago, IL. April 1, 2014.

Department of Physiology, University of Tennessee Health Science Center, College of Medicine, Memphis, TN. April 9, 2015.

Rush University Medical Center, Rush Translational Science Consortium, Scientific Leadership Council. Chicago, IL. November 14, 2017.

Invited presentations at symposia

Gordon Research Conference on "Magnesium in biochemical processes and medicine", Oxnard, California, USA, February 26 - March 2, 1990

Magnesium in Clinical Medicine & Therapeutics - Workshop on assessment of magnesium levels in body fluids and tissues, La Jolla, California, USA, May 2-4, 1991

Trace Metal Ions in the CNS: Dynamics and Regulation - Workshop at the Meeting of the American Society of Neurochemistry, Richmond, VA, USA - March 21-25, 1993

8th Annual Scientific Meeting of the American Society of Pharmacology and Experimental Therapeutics, Chicago, IL, USA, June 16, 1995.

XVIII Annual Meeting of the International Society for Heart Research on "Cellular signaling in the cardiovascular system", Chicago, IL, USA; June 9-13, 1996.

Gordon Research Conference on "Muscle: Excitation-contraction coupling", New London, NH, USA, June 8-13, 1997. Invited speaker.

International Symposium On New Developments In Smooth Muscle And Endothelial Cell Signaling, Nagoya, Japan, May 16-19, 1999.

University of Bern, Switzerland. Symposium: recruitment of chair for the Department of Pharmacology, University of Bern. December 1, 1999.

University of Zürich, Switzerland. Symposium 'Nachfolge Prof. E. A. Koller'. March 10, 2000.

Rheinische Friedrich-Wilhelms-Universität, Medizinische Fakultät, Bonn, Germany. 'Vortrag C4-Professur Physiologie (Nachfolge Prof. Dr. Dr. J. Grote)'. April 10, 2000.

5th Annual Meeting of Midwest Physiological Societies. North Chicago, IL, USA. June 5-6, 2000.

FASEB Summer Research Conferences 2000 on "Smooth Muscle". Snowmass, CO, USA. July 22-27, 2000.

Photonics West, Conference on "Molecular Probes and Dyes: Development, Application, and Detection". San Jose, CA, USA. January 19-25, 2002.

Symposium sponsored by The Journal of Physiology on "Normal and pathological excitation-contraction coupling in the heart" at the Joint Meeting of The Physiological Society, the Scandinavian Physiological Society and the Deutsche Physiologische Gesellschaft, Tübingen, Germany; March 15, 2002.

University of Zürich, Switzerland. Symposium 'Berufung Physiologie, Nachfolge Prof. Bauer'. June 27, 2002.

American Heart Association, Scientific Sessions 2003; Cardiovascular Seminar 4 on "Cardiac Alternans: From Subcellular Mechanisms to the Whole Heart". Orlando, FL, USA. November 9, 2003.

Institut d'Etudes Scientifiques de Cargèse, Corsica, France. Symposium on "Oscillations and waves in cells and cell networks", May 12, 2004.

Gordon Research Conference on "Calcium signalling", Oxford, UK, July 24-29, 2005.

American Heart Association, Scientific Sessions 2005; Cardiovascular Seminar on "Calcium and Arrhythmias". Dallas, TX, USA. November 14, 2005.

Keystone Symposium on "Cardiac Arrhythmias: Linking Structural Biology to Gene Defects"; Granlibakken Resort, Tahoe City, CA; 1/29 -2/3, 2006.

World Congress of Cardiology 2006; Symposium on "Microdomain signalling in cardiac muscle cells - new insights into small spaces". Barcelona, Spain; 9/2-6, 2006.

ISHR 2007, North American Section; Symposium on "Maintaining metabolic balance in the cytosol". Bologna, Italy; 6/ 21-22, 2007.

Keystone Symposium on "Dissecting the Vasculature: Function, Molecular Mechanisms and Malfunction"; Vancouver, Canada; 2/24-3/1, 2009.

Heart Rhythm 2009, Heart Rhythm Society's 30th Annual Scientific Sessions. Core Curriculum on "Metaboelectrical Signaling in the Heart", Boston, MA, USA, May 15, 2009.

31st Meeting of the North American Section of the International Society for Heart Research (ISHR), Session "Mitochondria in cardiac disease". Baltimore, MD; 5/26-29, 2009.

Gordon Research Conference on "Cardiac Regulatory Mechanisms", New London, NH, USA, June 6-11, 2010. Invited speaker.

Frontiers in Cardiovascular Biology 2010. Session: The Ca²⁺ Universe. Berlin, Germany, July 16-19, 2010.

Frontiers in Cardiac Muscle Biology: Calcium Release in the Heart. Center for Molecular Cardiovascular Biology and the Fondation Leducq Transatlantic Network of Excellence. Johns Hopkins University, Baltimore, MD, USA, March 4, 2011.

American Heart Association, 1st Annual Metro Chicago Research Network Symposium on "Transgenic Approaches to Cardiovascular Disease: Past, Present and Future". Loyola University Chicago Medical Center, Maywood, IL, USA, September 20, 2013.

2015 CDW Symposium on "Cells, Sensors, and Systems". Sanford Consortium for Regenerative Medicine, La Jolla, CA; October 22, 2015.

University of California-Davis Cardiovascular Symposium, "Mechanics and Energetics in Cardiac Arrhythmias and Heart Failure", Davis, CA; February 21-23, 2018.

2019 Ephaptic Coupling Conference, Roanoke, VA; May 5-7, 2019.

American Heart Association, Scientific Sessions 2019; Session CA.CVS.115 - "Calcium release refractoriness and calcium alternans: Emerging views. Philadelphia, PA, USA. November 18, 2019.

February 23, 2022
