LET'S GET STARTED:

Welcome to working from home at Rush. Note: If you have a Rush issued laptop, you are allowed to take that home. If you are on a desktop, you will have to use your own personal device.

You will need:

Computer:

A laptop or desktop computer like a(n):

- Apple Laptop
- Windows Laptop
- Chromebook

Phone:

Make sure that you have access to either a smart phone or a landline phone like a(n):

- Apple iPhone
- Android Phone
- Google Phone

Internet:

Access to the internet and can go open web browsers like:

Google Chrome

Mozilla Firefox

Internet Explorer

If you need any assistance, please contact:

[HELP DESK](#)

help@rush.edu

(Click on HELP DESK to Return to Top of Document)

BEFORE YOU LEAVE RUSH:

There are few things that you need to do before you leave to make sure that you have the best experience working from home.

What you need to do

Step 1: Move your files to the H: Drive

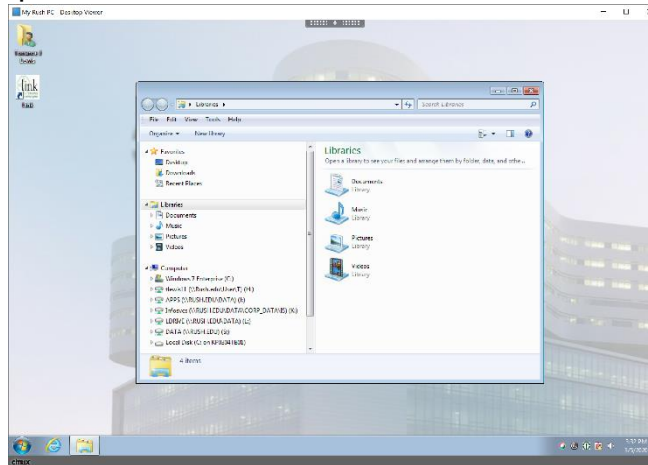

In order to do this, you will need to get onto the computer that Rush issued you or that you use for most of your daily work.

On your Rush computer/laptop

1. Look at your device to see if there is a windows icon like this  on the back of the device, bottom left of the screen, or on the keyboard. If so follow the on **windows computer/laptop** instructions

On windows computer/laptop

1. Click on the file folder icon  on the bottom toolbar. A window like the one below will open.

If you need any assistance, please contact:

[HELP DESK](#)

[2-HELP](#)

[312-942-HELP](#)

help@rush.edu

(Click on HELP DESK to Return to Top of Document)

2. On the left toolbar click on the H: Drive like the one below. This is where you will be saving all your files.

3. Locate the documents or folders that you want to have access to while you are working from home. Click on the document and drag it into the empty H: Drive window.
4. Repeat for all the files and folders you need to work from home.

If you run into any issues with moving your files or do not have enough space for your files **please call 2-HELP or email at Help@rush.edu**. Please include your full name, phone number, and that you are having an issue with moving your files. Please be as descriptive as possible.

If you need any assistance, please contact:

[HELP DESK](#)

[2-HELP](#)

[312-942-HELP](#)

help@rush.edu

(Click on [HELP DESK](#) to Return to Top of Document)

Step 2: Forward your phone

In order to do this you will need to be at your Rush provided phone that is attached to the number you use to receive calls at Rush. You will also need your cell phone near you for this process.

On your Rush phone

1. Look at your phone and see if it looks like one of the four phones below.

2. If your phone looks like any of the above, follow the instructions for the model name below the photo that matches your phone (i.e. **on a Cisco 8800**)

Forwarding calls on a Cisco 8800 phone

1. Make sure that your phone looks like the one to the right.
2. Click on the forward all option. Click the soft key below it.
3. Wait for three beeps.
4. Dial 91+ then enter your 10 digit number of the phone you want to forward to. (i.e. 91-222-222-2222).
5. The screen will give you a confirmation that the calls are being forwarded.
6. Navigate to another phone in the office (make sure you bring your mobile phone), and dial your extension if the process was successful your mobile phone number will ring.

In order to watch a video tutorial about how to forward calls on this phone [click here.](#)

(Click on HELP DESK to Return to Top of Document)

Forwarding calls on a Cisco WiFi Phone

1. Open the Phone app by clicking the center button.
2. Select the line that you would like to forward
3. Press **More** and select the **Forward all** option.
4. Dial 91 then the number you want to receive the calls (i.e. 91-222-222-2222)

If you run into any issues with forwarding your phone calls **please call 2-HELP or email at Help@rush.edu**. Please include your full name, phone number, and that you are having an issue with forwarding your calls and the model name that is below the picture that matches your desk phone. Please be as descriptive as possible.

Step 3: Register for Duo Security

Before you leave Rush, make sure that you have access to everything while you are gone you will need to register for Duo Mobile. Please follow the below steps to register.

Registering for Duo Mobile Security**On your laptop/desktop computer**

1. No matter what type of device you have you will be able to follow these steps to connect to My PC via MyRushApps. Open one of the below browsers and type in the url: <https://myapps.rush.edu/Citrix/MyAppsWeb/>

Google Chrome

Firefox

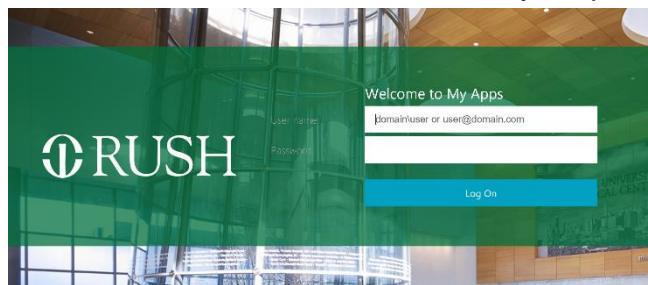

Internet Explorer

Safari

(Apple Devices Only)

2. When the window opens it will look like the below. In the username field enter your Rush email address. In the field below, enter your password.

If you need any assistance, please contact:

HELP DESK

2-HELP

312-942-HELP

help@rush.edu

(Click on HELP DESK to Return to Top of Document)

3. If it is your first time logging in to MyRushApps it will ask what type of device you would like to register. Choose **Mobile Phone**.

The screenshot shows the MyRushApps registration interface. On the left is the RUSH logo and navigation links: "What is this?", "Add a new device", "My Settings & Devices", and "Need help?". Below these links is the text "Powered by Duo Security". The main content area is titled "What type of device are you adding?". It features four radio button options: "Mobile phone RECOMMENDED" (selected), "Tablet (iPad, Nexus 7, etc.)", "Landline", and "Security Key (YubiKey, Feitian, etc.)". Below these is a "Touch ID" option with a note: "Requires Chrome on macOS to use Touch ID." At the bottom are "Back" and "Continue" buttons.

4. A new window will ask you to enter your number (i.e. 222-222-2222). After entering, press **Continue**.

The screenshot shows the MyRushApps registration interface. On the left is the RUSH logo and navigation links: "What is this?", "Add a new device", "My Settings & Devices", and "Need help?". Below these links is the text "Powered by Duo Security". The main content area is titled "Enter your phone number". It features a dropdown menu for "United States", a "+1" prefix, and a text input field. Below the input field is an example: "Example: (201) 234-6678". At the bottom are "Back" and "Continue" buttons.

5. Identify the type of phone that you have. Then, press **Continue**.

The screenshot shows the MyRushApps registration interface. On the left is the RUSH logo and navigation links: "What is this?", "Add a new device", "My Settings & Devices", and "Need help?". Below these links is the text "Powered by Duo Security". The main content area is titled "What type of phone is 773-807-6603?". It features four radio button options: "iPhone" (selected), "Android", "Windows Phone", and "Other (and cell phones)". At the bottom are "Back" and "Continue" buttons.

- a. **If you have an iPhone**, you will follow the instructions on screen like the window below.

The screenshot shows the MyRushApps registration interface. On the left is the RUSH logo and navigation links: "What is this?", "Add a new device", "My Settings & Devices", and "Need help?". Below these links is the text "Powered by Duo Security". The main content area is titled "Install Duo Mobile for iOS". It features a smartphone graphic showing the Duo Mobile app in the App Store search results. To the right of the graphic are two numbered instructions: "1. Launch the App Store app and search for 'Duo Mobile'." and "2. Tap 'Get' and then 'Install' to download the app." At the bottom are "Back" and "I have Duo Mobile installed" buttons.

WHILE YOU'RE WORKING AT HOME:

There are a few steps for you to get up and running at home.

Getting connected

Get onto the computer that you will be using to work from home.

Connecting to Wi-Fi on your laptop/desktop computer

1. Please see the below and choose which type of laptop matches the logo on the back of your device.

Mac

Chromebook

Windows

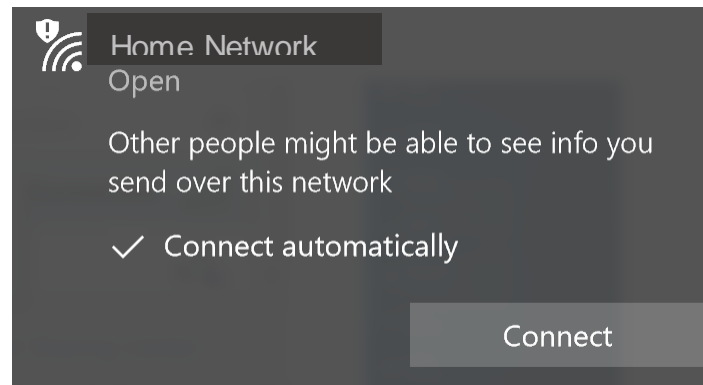

2. Depending on the type of device you are on follow the steps for that device (i.e. **on a Mac**)

On a Mac

1. Click  in the menu bar. If Wi-Fi is off, click , then choose Turn Wi-Fi On.*
2. Choose a network.
3. Enter the password, then click Join.

On a Windows

1. Click on the wireless icon  in the bottom-right corner of the taskbar. (If you don't see the button, click the up arrow button on the left of the toolbar.)
2. Select the wireless network that you use in your house.
3. Check the Connect automatically option (optional).
4. Click the Connect button.
5. Enter your Wi-Fi password.
6. Click the Next button.

If you need any assistance, please contact:

[HELP DESK](#)

[2-HELP](#)

[312-942-HELP](#)

help@rush.edu

(Click on [HELP DESK](#) to Return to Top of Document)

7. The network will say connected like the window below.

On a Chromebook

1. At the bottom right, select the time.
2. Select Not Connected .
Note: If you see your Wi-Fi network name and a signal strength, your Chromebook is already connected to Wi-Fi.
3. Turn on Wi-Fi.
4. Your Chromebook will automatically look for available networks and show them to you in a list.
5. Select the secure Wi-Fi network .
6. Type the network password.
7. Select Connect.

If you run into any issues with connecting to the Wi-Fi **please call 2-HELP or email at Help@rush.edu**. Please include your full name, phone number, and that you are having an issue with connecting to the internet and the model name that is below the picture that matches your desk phone. Please be as descriptive as possible.

If you need any assistance, please contact:

TIPS FOR A SUCCESSFUL WEBEX CONFERENCE

To join a WebEx you will need:

- A laptop or desktop computer
- A desk phone or mobile phone with the WebEx Meet app downloaded (click on How to download WebEx meet on my mobile device and follow the steps)

Follow these tips for a successful WebEx meeting

Arrive early

Whether you are hosting or joining a meeting, arrive at least 15 minutes early like you would in person meetings. This allows you time to dial in and join the WebEx via phone or laptop.

Find a quiet place

When you are joining or hosting, make sure that you find a quiet place or if you are in public use headphones to reduce background noise. This will make participants able to hear you better.

Mute your phone

Once you have joined a meeting, make sure that you mute your phone using the  icon on your mobile phone. This will make sure no one can hear you typing or working while you are joined. Also, if you connected to the WebEx via WebEx Meet app or laptop/desktop computer you can click the  button on the WebEx. When you are muted it will look like this .

Don't show yourself unless you want to

Once you have joined a meeting there will be an option to choose your video. If you do not need to show yourself choose the no video option. If you are in the meeting and want to turn your video off click on the  icon and it will turn red when it is off like this

Share your screen with other users

Once you have joined a meeting, you can share your screen with other users. Click on the share button like this  it will ask you what screen or application you would like to share Click **Screen 1**.

Communication through WebEx teams.

We suggest using WebEx teams through My PC to stay in constant contact with your co-workers. In order to do this you will have to have signed in to My PC via MyRushApps.

1. Click on the start button icon that looks like this  , a window like the one below will open click on WebEx Teams.

2. After clicking on the application, a window will open like the one below will open. Enter your work email address (i.e. John_doe@rush.edu). Then click, **Next**.
3. Once you have logged in a window like the one below will open. You will be able to create a space and also send messages to others on your team.

If you are interested in learning more about these functions, please watch the videos

Welcome to Webex Teams.
It's nice to meet you.

below. They will walk you through the steps to create a space and send messages respectively.

Create a space in WebEx Teams. [Click Here](#) to open the video tutorial.

WHEN YOU RETURN:

When your time is done working from home there are a few steps that you need to do to make sure that you can return without missing a beat.

Here is what you will need to do:

Computer:

Make sure that you have access to all of the files that you worked on while away. You can ensure this by making sure you follow the steps to move all your documents to the H: drive. When you return to Rush it will be like you never left.

Phone:

Make sure that you turn off the call forwarding for your phone. Follow the steps below.

End Forwarding calls on Cisco 8800 phones

1. Click on the Shut off Forward soft key below the command.
2. Call the extension and if you were successful the phone will ring not your mobile phone.

End Forwarding calls on Cisco 7900 phones

1. Click on the CFWD ALL soft key below the command.
2. Call the extension and if you were successful the phone will ring not your mobile phone
